

CONTAINER CM1 / CM2

Made of sheet metal (Model CM1) or stainless steel (Model CM2). It is recommended for collecting grapes, potatoes, beetroot, cereals. A specific frame applied to a lift truck allows bilateral hooking, transportation and hydraulic tipping. Equipped as standard with quick hooking and connection tubes.

CM1 - CM2

Attacco			TPI
A	Lunghezza - <i>Length</i>	mm	1350
B	Larghezza - <i>Width</i>	mm	1460
C	Altezza - <i>Height</i>	mm	850
D	Baricentro contenitore - <i>Container gravity centre</i>	mm	750
α	Angolo di rotazione - <i>Rotation angle</i>	°	145°
Q	Portata massima - <i>Max. load</i>	Kg	800
-	Capacità - <i>Capacity</i>	Lt	1000
-	Peso - <i>Weight</i>	Kg	145
-	Linee idrauliche necessarie - <i>Required hydraulic lines</i>	n°	2 (1 leva d.e.) - (1 d.c. lever)
-	Ribaltamento - <i>Tilting</i>		Idraulico - <i>Hydraulic</i>
